Re: "The Hunted"

Dear Terry:

On behalf of the cast and crew of **The Hunted**, we want to offer our most sincere thanks for your generosity and cooperation during the recent shoot. We literally could not have made this film without you as it was self-financed and totally dependent on the help that we got from people like you.

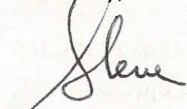

High quality low budget film-making is totally dependent on having low or no cost support of people and places. We needed to have a number of locations in order to have the story work effectively. Shooting in high def, our crew needed to be sure that the lighting and props we used were able to withstand the scrutiny that high definition film making requires, and by offering us your location and support we feel we were able to meet all our benchmarks. In fact, having reviewed much of the film "dailies", we are confident that we have a first rate short film that will get a lot of attention.

Not only were truly lucky to secure a first rate production crew for the filming, but the post-production team has taken on a life of its own. Both an Academy Award nominated editor in LA and an award winning composer were attracted to the project by the script. All the footage is now in the editor's hands. When the film is completed, we have developed an aggressive campaign to get it into film festivals around the world and all the major competitions, including Cannes, The Golden Globes and Oscars.

We hope to have post-production completed and the film "in the can" by mid-November, and start screenings in Provincetown during the holiday season. Of course, when it is screened, The Boatslip Resort will be prominently featured in the credits

Thanks once again for the help you gave us.

Sincerely,

Steve Lyons
Screenwriter and Director
